relating to the **SECRET**

9 March 1960

MEMORANDUM FOR : Deputy Director (Plans)
THROUGH : Acting Chief, DFD-DD/P
SUBJECT : ONCART Security
Possible Security Leak, FOG

1. Attached is a report made by [redacted] Security Officer presently assigned to Lockheed Aircraft Corporation, of an interview with a Lockheed technical representative assigned to Laughlin Air Force Base, Del Rio, Texas. This report was received in Headquarters on 8 March 1960 and has been read by Colonel Burke, Colonel Geary, Mr. James A. Cunningham, Jr. and [redacted]

2. All readers are of the opinion that General Powers should be briefed on the ONCART program and his assistance solicited in squelching the discussions presently taking place at Del Rio. We would also like to obtain his permission to have a very quiet investigation made of the possible leak. It has been agreed that the best way to handle any investigation is for DFD Security to handle the liaison with Office of Special Investigations, U. S. Air Force. Similar problems have been handled in the past by this method, resulting in a very limited number of persons becoming aware of the problems or program.

3. Contemplated action:

(a) Colonel Geary to brief General White on the possibility of a problem and obtain permission to brief General Powers.

(b) Colonel Geary, possibly Colonel Burke, and [redacted] to go to Omaha, SAC Headquarters, to brief General Powers and solicit his assistance.

(c) If deemed necessary, to make contact with Colonel Raymond E. Rife, Executive Officer, OSI, to request a very quiet investigation of the problems outlined in the attached memorandum.
